

Beaulieu Gate Development update

Issue 2 | Summer 2024

Welcome to the latest development update for Beaulieu Gate M&N where we provide information about progress on-site and let you know the next stages

About Beaulieu Gate M&N

Beaulieu Gate is the latest addition to Chelmsford's vibrant new district. Surrounded by ancient parkland and inspired by the design of Henry VIII's Tudor Palace (now New Hall School), Beaulieu Gate has been designed to make an instant impact, a new gateway to the wider Beaulieu development.

Site activity

Site works have progressed well for Beaulieu Gate, the first phase of the development is now build complete with the second phase due to complete Winter 2025.

External areas to the south of the second phase are now fully open and complete with site activity kept to the North.

By the end of Winter we expect to be able to open the first section of Harris Crescent. This will likely not include the visitor parking bays however, as this space is needed for our construction compound. The parking bays will be provided once we move from this area though.

Water Logging

We are currently actively working on a solution to the water logging along the western side of the bridge way on the first phase. We will be working with our Arboriculturist to ensure any design works with the existing tree line.

Timeline

- The first occupations on Beaulieu Gate took place in December 2021, our final occupations are expected to be Autumn 2025 .
- The show homes and marketing suite will remain at the front off of Commonwealth Link until Winter 2025 as they will serve the second phase until its completion.

Public Open Space

All open space across Phase one is completed and due to be handed over to The Land Trust for ongoing maintenance in due course, this process will take us into Spring 2025 to ensure planting is established. The landscaping will be maintained by Countryside until then.

The open space across Phase two is partly planted and handovers will begin from Autumn this year and take us into Autumn 2026 to be fully handed over.

Managing agent

- The Land Trust are the Estate Management for the entirety of Beaulieu Park. They are responsible for all public open space areas across the wider estate and within the individual developments where landscaping does not fall within someone's ownership. This will include landscaping, play areas, verges, swales and SuDS.
- HML Limited are the appointed Management Company to maintain the other areas across the development only. They are responsible for the non-adopted footpaths, non-adopted roads, non-adopted streetlighting and associated feeder pillars/electricity. These are the items which form the associated Zonal service charge. Where relevant for leasehold properties, they will also provide the block service charges and associated services.

Upcoming Handovers

Our next handovers to the Land Trust will include the landscaping to the Northern half of Phase one as this was laid and established in Summer last year.

Services

Electricity and Gas – British Gas

Water – Essex & Suffolk Water

Local authority – Chelmsford City Council

Beaulieu Gate M&N

Beaulieu Park is a well established community and Countryside continue to contribute towards this to ensure it keeps growing.
